

中華民國化學工業責任照顧協會

Taiwan Responsible Care Association

## Statement of Commitment

We are proud to participate in Taiwan Responsible Care® initiative.

We pledge to operate our business according to the following Guiding Principles.

Chemistry is essential to the products and services that help make our lives safer, healthier and better. Through the Responsible Care initiative and the Responsible Care Global Charter our industry has made a worldwide commitment to improve our environmental, health and safety performance. Accordingly, we believe and subscribe to the following principles:

- To lead our companies in ethical ways that increasingly benefit society, the economy and the environment.
- To design and develop products that can be manufactured, transported, used and disposed of or recycled safely.
- To work with customers, carriers, suppliers, distributors and contractors to foster the safe use, transport and disposal of chemicals and provide hazard and risk information that can be accessed and applied in their operations and products.
- To design and operate our facilities in a safe and environmentally sound manner.
- To instill a culture throughout all levels of our organizations to continually identify, reduce and manage process safety risks.
- To promote pollution prevention, minimization of waste and conservation of energy and other critical resources at every stage of the life cycle of our products.
- To cooperate with governments at all levels and organizations in the development of effective and efficient safety, health and environmental laws, regulations and standards.
- To support education and research on the health, safety, environmental effects of our products and processes.
- To communicate product, service and process risks to our stakeholders and listen to and consider their perspectives.
- To make continual progress towards our goal of no accidents, injuries or harm to human health and the environment from our products and operations and openly report our health, safety and environmental performance.
- To seek continual improvement in our integrated Responsible Care Management System® to address environmental, health and safety performance.
- To promote Responsible Care® by encouraging and assisting others to adhere to these Guiding Principles.
